

## Temperature at the Waterloo Weather Station January 2005

High/Low Temp: 14.9 °C/-32.3 °C  
Average Daily High: -3.3 °C  
Average Daily Low: -12.8 °C

The temperature never seemed to be average this month: either above average in the first half or well below average in the second.

## Precipitation at the Waterloo Weather Station January 2005

Total precipitation  
73.1 mm

We were headed for an above average month of precipitation, but a dry week at the end put the final total just in the top of the average range.
