

Temperature at the University of Waterloo Weather Station June 2009

High/Low Temp: 31.3°C / 2.9°C
Average Daily High: 22.1°C
Average Daily Low: 11.3°C

Even a couple of hot days near the end of the month couldn't offset the cold temperatures throughout the rest of June.

Precipitation at the University of Waterloo Weather Station June 2009

Total precipitation
75.8 mm

A lot of rain during the last few days of the month took us from below average back into the average range.
