

## Temperature at the Waterloo Weather Station Spring 2009

High/Low Temp: 26.3 °C/ -8.5 °C  
Average Daily High: 15.2 °C  
Average Daily Low: 4.2 °C

It was average overall with no long periods of either really warm or really cold weather, except for the the last few weeks which were on the cool side.

## Precipitation at the Waterloo Weather Station Spring 2009

Total precipitation  
264.6 mm  
(average 219.5 mm)

A consistent spring for precipitation with the total always sticking to the upper end of the average range. In the end it was just enough to call it above average.
