

Temperature at the University of Waterloo Weather Station February 2012

High/Low Temp: 7.8°C/ -14.6°C
 Average Daily High: 1.4°C
 Average Daily Low: -5.2°C

As it was the second warmest February of all time, it is not surprising to see all the temperatures above the average range.

Precipitation at the University of Waterloo Weather Station February 2012

Total precipitation
34.4 mm

A pretty dry month that got just enough precipitation on the last day to put it into the average range.
